is recorded

- The date of beginning the siege (9-10-10) by Ezekiel (24:1), by Writer of 2 Kings (25:1), and twice by Jeremiah (39:1 & 52:4,5). Since the same date is used by all three writers, they obviously must have employed the same form of regnal year. Otherwise there would be a year's difference between Ezekiel and Jeremiah in their summer dates.
- A fall to fall regnal year gives significance to Ezek.40:1, definitely showing that Ezekiel had the vision of the new temple on the 10th day of the 7th month--the Jewish day of atonement. To Ezekiel, the 7th month was obviously the "beginning of the year," the same as with Jeremiah and the writer of Kings. The 10th day of this month is the only feast date mentioned in the prophecy.
