New Teaching Staff

Dr. Don Abbey

Coming to Union from Canadian University-College (formerly Canadian Union College), Dr. Abbey will be a professor of biology in the science division.

Dr. Rebecca Greer

Dr. Greer will teach chemistry in the science division. She has recently graduated with a degree in veterinary medicine.

Kelly Hagele

From Oregon, by way of Andrews, Mrs. Hagele will teach marketing classes in the business division and work with the SIFE (Students in Free Enterprise) chapter at Union.

Laura Kargas

Ms. Kargas returns to Union where she earned her masters in an Andrews University program (run on Union's campus) and where she has taught in the past, to join the nursing division.

Cindy Nelson

Mrs. Nelson has taught for Union in a hospital setting and now brings her skills to the nursing division. She lives in Lincoln where her husband pastors the College View Seventh-day Adventist church.

Elizabeth Rodacher-Borgens

Ms. Rodacher-Borgens comes to Union with a masters in teaching English as a Second Language (ESL). She is currently teaching English in Japan.

New Hot Tub

On May 26, 1998, Union College's Larson Lifestyle Center presented its latest improvement, a new hot tub. Construction on the hot tub project began in January this year. Replacing the broken hot tub that the Lifestyle Center had before, the new one is tiled like a small above-ground pool and seats 18 people. It is ideal for relaxing with friends after working out.

Mr. (Dr.) Smith goes to Lincoln

Dr. Smith, our new president for the '98-'99 school year came to Union this summer, and began assuming the duties of the President. Who, though, is this new man who has joined our campus? What makes him tick? And, how can we relate to him? Well, for starters, he's a twin who actually didn't like being a twin when he was growing up. (And he even has funny stories about the tricks they used to play on their friends; just ask him.) He has no favorite color. ("I like them all!") And he was even voted most humorous professor at Southern University a few years back.

He watches TV. (ER, 7th Heaven, and the news) His hobbies include reading, camping, writing (though he claims not to be very good at it), and of course, public speaking. He's a sports fan, especially of Chicago teams. If not being a teacher and leader, he would love to be a wildlife biologist/photographer and help with the reintroduction program for wolves. He has two daughters, and was recently present at the birth of his first granddaughter, Katie. (You have to see the pictures.) And for the past 27 years, he has been happily married to his wife, Cherie.

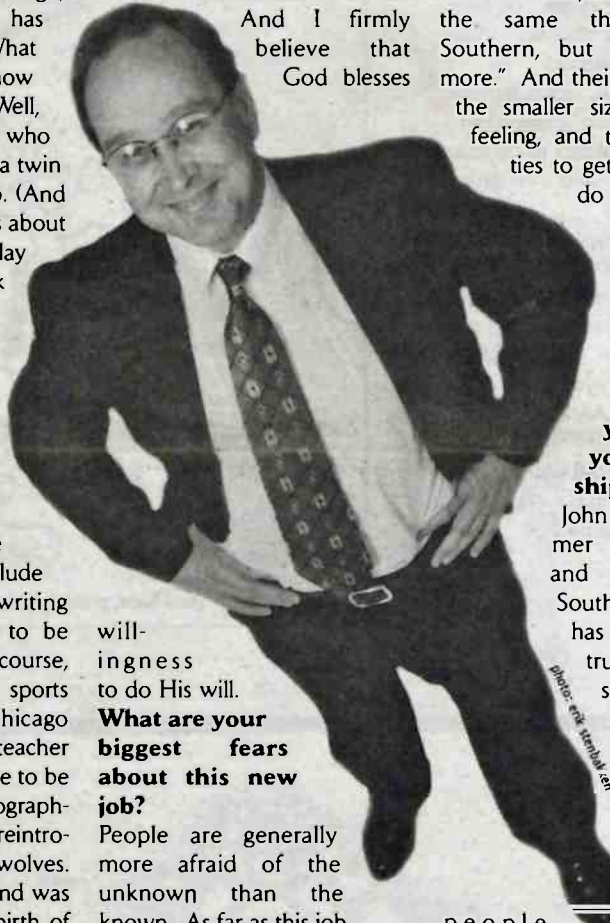

I recently sat down with him to find out more about him as a person, his hopes, dreams, and even fears. And it went something like this...

First off, what made you

accept this position?

My wife and I, through a series of circumstances, became convinced that this is what God wanted us to do.

And I firmly believe that God blesses

will- ingness to do His will.

What are your biggest fears about this new job?

People are generally more afraid of the unknown than the known. As far as this job goes, I am aware of a lot of the challenges, and I don't really have fear because God called me to do this. I try to transfer that fear into a trust in God. I do fear things that are out of my control though such as campus tragedies, tornados, etc.

In your opinion what is Union's best quality?

All of those things that are associated with a smaller sized cam-

pus. When I came here for an interview, I came across three former Southern students, and I asked them how they liked it here at Union, and they all said the same thing--"I liked Southern, but I like Union more." And their reasons were the smaller size, the family feeling, and the opportunities to get involved and do more.

Who's a great leader that has had a profound effect on you and your leadership style?

John Wagner (former UC president, and former Southern president) has provided me a true example of someone who leads to serve. People are always first and most important. He was very

people oriented and thought every concern was important. He brought a certain peace to campus. No task was beneath him. He even slept in his own van when going on trips for Union College just to save money. He always lives his life by principle.

(cont. on page 2)

quote

"We can't all be heroes. Somebody has to sit on the curb and clap as they go by."

Will Rogers

Capital Campaign

During Homecoming weekend this past spring Union unveiled its \$5 million Capital Campaign project. The campaign has been quietly in the works since fall 1996, and Union has met over half of its goal with commitments and cash totaling \$2.85 million. Funds raised in this campaign will be used to "enhance facilities, update the College's computer and science resources, and add to its endowment for student scholarships." Some buildings on campus designated to receive special attention are the residence halls and the cafeteria. Campaign creators, the administration and board of trustees, believe that they will attain their goal within the next year.

The Physician's Assistant Program

Accredited just last year, Union's physician's assistant program took off this summer with 19 students. The program began as a result of prayer and that influence is still dominant in its structure. Although Union's program is young, the curriculum is strong and able to compete with any program in the country. Mike Huckabee is the program director, Earl Pate is working out the didactic part of the program, and Dwayne Leonhardt is the physician medical director. Union is still seeking a clinical director for next year to complete the team.

news

Dr. Smith Continued

Dr. Smith (cont.)

Would you say people are born leaders, or is it something they acquire a talent for?

Yes, people are born with certain talents and gifts that lend to certain qualities, like leadership, but I believe that most leaders become that through circumstances. So overall, I feel a leader is made, not born.

If a wealthy and oh so generous Alum donated \$1 million to Union tomorrow, where would you like to see it go?

I would want most of it to go for scholarships. One overwhelming concern with students is the cost of the education, and I never want money to be the only reason a student doesn't come to Union. And I would use the remaining part of it for improvements on the music/art building and also the science building.

When did you and your wife meet?

We actually lived two blocks from each other in Hinsdale, Ill. and I worked with her brother. We went to the same academy, but we never really had any close contact. One of her only memories of me in academy was me yelling at her because I got a bad grade on a religion paper and she was the reader for the religion class I was in.

How about your first date?

We had our first date at Andrews, and we saw The Longest Day (an old war

movie). We dated everyday after that for two years. In the two years we were dating, we only spent one day apart geographically.

How did you propose?

I'm afraid it wasn't very creative. I proposed in her driveway on the way home from a date. She was very warm and responsive, though.

And finally, what would you like to be known for as Union's new President?

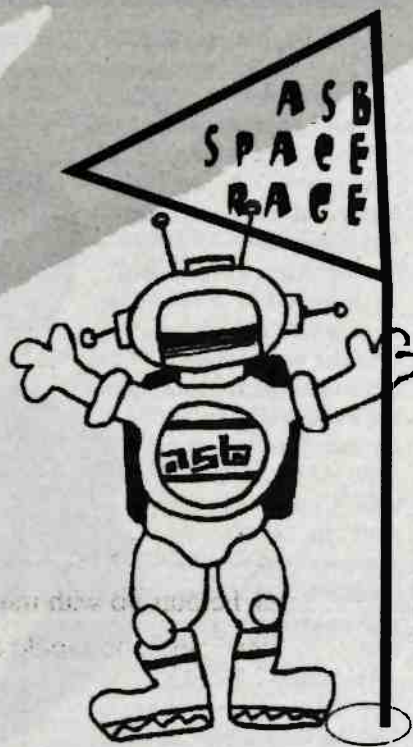

That I can answer very quickly; I want people to know that I follow Christ. That may seem like a common answer on a Christian campus, but it truly is the most important thing in my life, and I want others to be able to look at me and recognize that.

Dr. Smith seems to be on a very noble mission. He loves Union College and the people here, and he encourages people to get to know him because after all that's what he's here for—to serve. And about his mission? This reporter thinks he's on the right track to making wonderful things happen. Good luck Dr. Smith!

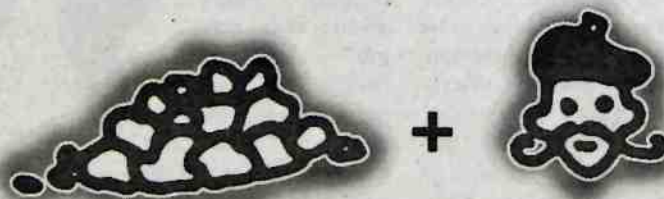

ASB SPACE RACE

Saturday Night August 22

welcome to your chance to meet all the new students & faculty at union. while enjoying fun that's out of this world. so grab your favorite space costume & join all the other space crusaders down at 49ers field. there'll be food & games that only aliens can appreciate. try us.

keep your face shield open for signs with more specs about this event.

{fig.1 rockpile}

{fig.2 poet}

you do the math.

rockpile poets

{first meeting. Tues. September 8}

So you're left-brained, math wiz. But does your artsy right side work? Give it a whirl with the Rockpile Poets. The Rockpile Poets will meet the second Tuesday of each month from 12 to 1 p.m. and 5 to 6p.m. in the Cafeteria. Call Dr. Bill Fitts at 2322 for more info.

MY HERO OF THE WEEK AND SUMMER

This is my little section to randomly or not so randomly thank those who have been an inspiration, savior, friend, or all around cool person to me in the recent past. In other words, I wouldn't have made it without them. So here goes...

This past summer, just like the last, was busy and stressful. Have you ever noticed that they are sometimes busier than the winters? Anyway, through out it all, one person has been there day and night to comfort, console, and convince me to go on. He's been a friend, a brother, and every so often, a punching bag. And yet he still sticks around. For that, I am truly grateful, and it is for that very reason that I deem Ed Mejia my hero of the week. Congratulate him on a job well done. After all, he puts up with me at not one, not two, but three different jobs. Heck, he should apply for sainthood. Thanks, ed. This one's for you. :)

Welcome!

Well, here it is, the night before the clocktower is due to the printer (exactly 2:43 a.m.), and I am just now sitting down to write my editorial. To tell you the truth, I've been putting this off as long as I can. The reason? I have nothing to say. Well, no, that's not right. I have plenty to say. (Anyone who knows me knows that I always have something to say.) I just have nothing that seems really that important or profound. I guess the best thing I can think of is this...

Please like this paper. There I said it. I'm begging you. I, along with my wonderfully loyal and very underpaid staff, will work our absolute hardest to make it something worthy of your time. But I need your help as well. Read it. Tell me about it. Share your ideas. I would love to hear them. This paper is for you, and it really should be by you as well (I will keep my fingers crossed). As I write this, I am realizing that it is sounding whiny and desperate (well as much as paper actually can), but I guess that's because that is what I'm going to be without you. So, before you throw this lovely little gem down, think about what you can do to make it better, and then find me. I really do care what you think.

Meanwhile, welcome. Have a great year! Glad you're here. And all that other beginning of the year, happy stuff. You'll love it here!

Until next time...

Taco Bell want some?

{free food...yeah}

The first 5 letters to the editor will receive a \$5 gift certificate to Taco Bell (five for five, get it?). We know, it's not life changing, but we're poor too. So, if you have something to say (good or bad); suggestions, praise (we'll love that), or you want to talk about anything else, e-mail us @ clocktower.edu, and you just may find yourself at Taco Bell very soon. Remember, the letter must be publishable.

Clocktower staff not eligible. Only one entry per person. Void where prohibited. Not available in all states. Batteries not included.

LIFESTYLE CENTER HOURS

{for you healthy types or just the extra curious}

Sunday	7:30 to 9:30 a.m. & 3:00 to 10:00 p.m.
Monday-Thursday	5:45 a.m. to 10:00 p.m.
Friday	5:45 a.m. to 4:30 p.m.

TOURNAMENTS

{for that competitive bone in all of you}

Coed Softball	August 23
Golf Tournament	September 20
Tennis Tourney	September 25-27
Schick 3 on 3	February 9-10
1 on 1	March 8
Badminton	April 5-8

questions? you know who to call.

INTRNMURNLS

{this is a list of sports and Approximate dates. For more information call Ric Spaulding at the Lifestyle Center, ext. 2525}

Football	August 25 - October 14
Volleyball (coed, men's, women's, 4-person)	October 19 - Christmas Break
Bowling	January 10 - end of February
Basketball	January 11 - March 12
Floor Hockey	March 15 - Graduation

SO YOU THINK YOU CAN PLAY GOLF?

This year marks the second season of the men's golf team's existence here at Union College. And to celebrate, they're forming a new team. How novel. Anyway, if you're interested in being one of the 8-10 lucky boys, then by all means tryout. The tryouts are coming in the middle of September. More signs and details will surely follow. In the meantime, practice, practice, practice. And may we suggest the 7 iron.

And as usual, for all your sporting questions, contact Ric Spaulding at 2525.

RON DODDS

{men's basketball team head coach and all around schnazzy guy}

First things first, how many guys are you looking for?
10-12

How did the name "Warriors" come about?
Someone started calling some team members "Witnessing Warriors. Over time, they became just the "Warriors."

What made you want to coach the team in the first place?
Thought it would be a fun pastime.

What should all guys bring to the court in term of attitude on the first tryout?
Leave any bad attitudes outside the gym.

What are some of the qualities that you look for that indicate a good team play-

er?
Attitude; willingness to learn; and a fundamental knowledge of the game.

What's your philosophy on letting every team member play versus strategic playing to win a game?
I would like to see every player play once they are ready.

What's your number one goal for the team this year?
To have fun and produce positive memories.

Don't lie to us, is it possible to put full effort into this and still maintain a successful academic life?
Very much so. It's all in prioritizing your time.

If your team was suddenly granted \$5000 to use for

this season, what would you most like to see done with it?
A new scoreboard and use the rest of it for more outreach.

What should any player know about you and your philosophy on coaching?
I will give it my all.

How much do you think the fans add to the team's success?
They are a huge factor. After the game, I always hear the guys discussing it.

What was the highlight of last year's season?
Beating Grace (College) home and away. In a way, the whole year was a highlight because of the fun times the guys had.

What was it like to have

your 100th win?
What was so good about it was the guys played such a great game. I'm just glad for that.

Besides skills, what's the one thing you wish every guy would bring to the court?
A willingness to give their all.

What's your first thought when the buzzer goes off and the scoreboard favors the other team?
Did we learn and give it our best effort?

Do you have any improvements that you feel you need to make for this year?
Run more defenses and to run a faster transition game. Take a wild guess on your teams stats for the year.

JOE PARMELLE

{women's volleyball team head coach and all around schmoove guy}

First things first, how many girls are you looking for?
10-12 players

How many years has the Volleyball team at Union existed?
This will be the third year

What made you want to coach the team in the first place?
There was interest on my part in Volleyball and no one above really had the time to do it. I have two men from the community who help (volunteer) and they have a lot of volleyball experience.

What's the number one thing that all girls should know going into the first tryout practice of the year?

We look for skills. We look at those who practice hard. And those who listen to instructions.

What are some of the qualities that you look for that indicate a good team player?
Always ready to play; always watching and following the game when sitting on the bench, is on time and comes to all the practices.

What's your number one goal for the team this year?
Enjoy the experience and make some new friends.

Don't lie to us, is it possible to put full effort into this and still maintain a successful academic life?
Yes. All one has to do is look at

the collective GPA of the team and see that you can succeed at both.

If your team was suddenly granted \$5000 to use for this season, what would you most like to see done with it?
Some sort of training equipment.

What should any player know about you and your philosophy on coaching?
To be focused during practice and a game, and they should give their best effort. Don't worry about making mistakes.

Why do you think that there isn't a guy's volleyball team?
I don't believe any other school

our size has a men's team.

What, if anything, scares you about coaching?
The teaching part of the game.

What was the highlight of last year's season?
Playing well against teams that had beat us easily the year before.

How do you think we should balance being a Christian and being a good, competitive sports player?
Things have to be in perspective. Remember it is only a game. Play hard. Practice intensely, and leave the particulars of the game in the gym.

a & e

Janelle: In honor of Nebraska's farming heritage, we went to North Forty. We thought we'd help with the plowing. No, really. It's a miniature golf course.

Branson: I chose something athletic because I knew I could never keep up in an intellectual conversation.

Janelle: It was a really neat course. All sorts of hills and depressions. Even little streams ran through to capture wayward balls. They were nice for wading.

Branson: The course was nice and it wasn't too challenging. Janelle and I both made a few hole-in-ones and my putting is truly horrible.

Janelle: But sadly enough, I didn't win. My athletic prowess just isn't all it's cracked up to be. Although it probably would have horribly wounded Branson's pride to lose. Yeah, that's my excuse.

Branson: In the end, I won by four strokes. I blame the closeness of that on the fact

janelle:	9	10	9	9	10	9
branson:	8	10	9	9	10	9

that mosquitoes were munching on my legs. After both of us blew our opportunities for free games, I suggested ice cream at the Corn Popper. Food, the only other thing I'm good at.

Janelle: But it was closed. Right behind it is Lincoln Municipal Fountains. So we wondered. I briefly considered a swim, but they weren't deep enough. And I didn't have a burden to spend a few hours at the local precinct station.

Branson: I was still hungry, so I suggested BW-3's which has quarter hotwings on Tuesday nights. This spot isn't the greatest for vegetarians, but for me, they are the best. The date went well. I was full and it didn't cost me too much. And we got to talk a lot.

MOVIES?

It's not exactly creative, but in case you get bored, we just want you to know that there are several places you can visit to get your movie star fix. And to make it even easier, just call 441-0222 and you'll get a listing of all the movie theater, movies, and times. Yes, it's that simple.

- Cinema Twin 475-5969
- Douglas Three 475-2222
- East Park 3 467-3313
- Edgewood 3 421-3330
- Joyo Theater 466-2441
- Mary Reimpa
- Ross Theatre 472-5353
- Plaza Four 477-1234
- Star Ship 9 475-9991
- Stuart 476-1465

Dream Date

Nice idea but Lincoln's a little far from the beach.

Does it seem like all creativity has disappeared from the dating scene? Yeah, we thought so too. So, we the people of the clocktower to be creative-MONEY. Come up with a unique and feasible (that means it doesn't cost too much) idea and E-Mail it to us at cltower.edu. If we like it, we'll pay for it, you'll go, you'll write about it, we'll print it, you'll be a star.

This weeks winners are Janelle and Branson

religion

POWER PAC MNN

It has been said that confusion is the root of all evil...or was it chapel credits? For the sake of this article, we'll deal with confusion. Last year there was a certain degree of confusion as to exactly what a "Power Pac Weekend" was. In fact, it got so bad, a certain poor freshman was found huddled in the corner of their room one evening, mumbling, "No one ever told me what a power pac was." In an effort to prevent this situation from repeating itself, I will attempt to clarify any confusion that may be floating across campus.

Many moons ago, Union College was much like every other Adventist college and academy in that every semester we would have a week of prayer. A guest speaker would be brought in to speak every night of the week to the student body, or perhaps a student week of prayer would be planned where actual students - yes, students - would be asked to speak. These weeks were designed to provide a

spiritual "boost" to the students by challenging, inspiring, and igniting their hearts with the Holy Spirit.

However, last year a sudden change of plans was launched. The great think tank at Union College, otherwise known as Campus Ministries, decided that instead of offering only two weeks of spiritually charged events every year, it would be better to offer more, but briefer, spiritual boosts throughout the year. Instead of lasting a week, this new plan would run meetings from Thursday night through Sabbath. This new idea would also make it much easier to bring in quality speakers, since it is often difficult to find someone with a "free" week in their calendar.

But what to call this new idea? A week of prayer was always so spiritually powerful, and now it is going to be packed into a long weekend...and there it was. They would call the new event a "Power Pac" weekend.

Well, now you know. There is no excuse for confusion to be present on this campus-at least about the Power Pacs. And brace yourselves for this, the first Power Pac is already set for August 27-29! The speaker is none other than Dave Ferguson, the youth director for the Pennsylvania Conference. He spoke here at Union this summer for the Kansas-Nebraska Conference Camp Meeting and was really loved-so much so that Pastor Rich asked him to come back to Lincoln for our first Power Pac. There are five more Power Pac's planned throughout the year, so keep your eyes open for further information.

Don't let the Power Pac's, and all the other great activities that have been planned pass you by. Jump in and participate! It's the only way to live.

elliott smith

"no one ever told me what power pac was."

Dr. Rich Carlson,
Campus Chaplain

WELCOME HOME.

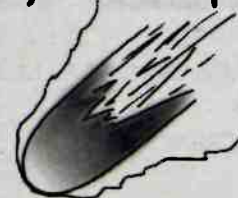

The staff of the Center for Spiritual Discovery (previously known as Campus Ministries, previously known as the Office of Eternal Affairs!!), welcomes you to Union College. This place is really boring during the summer when you are all gone (or haven't arrived yet). I'm really glad you're here (or back) because Union is not a set of buildings--they just provide shelter for our most important commodity--YOU! Maybe you didn't know it, but you aren't here to get an education (you could get that anywhere). Union may be a fully accredited institution of higher learning, but that's not its more important reason for existence.

Union is here to provide YOU with as many opportunities as possible to grow in your relationship with Christ and to continue establishing the foundation that will assist you as you make the three largest decisions on your entire life: What are you going to do with your life? Who are you going to do it with? And WHO will be ultimately in charge of your life? The sky is the limit on the first two. There is only one valid option for the last. We in Campus Ministries (whoops, I forgot our new name). We in the Center for Spiritual Discovery want to help you to become firmly fixed on Jesus as the Person in charge of all of

your life. Only then can you really have confidence in how the rest of your life will unfold. Together we can make a Union this kind of place. Your decision to get involved with Him personally and your decision to get involved in the spiritual life and activities on campus will help you decide if this will be a successful year for you. Yes, we do also offer classes here at Union, and you'll need to study too, but ultimately we exist and you exist to be loved by God, to glorify God, to follow God, and to serve those God loves. This is what Union is all about. Welcome. I'm glad you're here.

Project Impact

Tuesday, August 25
8:15 a.m.
front steps of Ad Building

{join your classmates and teachers in impacting our community}

The things they let me do...

This is my third year of writing columns for the Clocktower. I'm not entirely sure why the editors have put up with me, but they have. They let me write about gender issues, holidays, favorite things, what makes us crabby, animals, and fruitcake (I'm serious, even about the fruitcake).

Last year for my first column I wrote out some hints on how to stay sane and single during the frantic match-making that goes on at the beginning of the school year. After writing that I promptly did the opposite. Why? I have no idea. That's why this year I'll stick to

a nice safe topic to start the year (not that staying sane and single isn't a good topic, but I think you'd doubt my credibility)—introducing my section.

Welcome to the living section. Apparently, it is time for me to take on more responsibility and that kind of thing, so now, in addition to being a columnist, I am a section editor. I didn't realize it at the time I became a section editor, but this means I have to introduce you to my section, which is devoted to you, like the rest of the paper. Unlike the rest of the paper, this is where you'll find student opin-

ion, a top ten list, fashion, and phone surveys. Some items will be predictably in every issue, other things won't.

Why? Its a mood thing.

Think of this section like your mommy while you're away from home. We'll give you candid opinions and advice, both of which you will probably ignore. Also, we'll tell you how to dress, where to shop, how to save money, how to decorate, and how to survive. Mom would be pleased.

So, yeah, you can think of everyone that contributes to this section as extended family (not something you can say for just every sec-

tion). Since I am the section editor I guess that makes me a mother superior, or something... Whatever.

As I was saying (okay, writing), I am the section editor. This probably won't have any profound, earth-shaking effect on your life, but if you have questions on how to contribute to this section, comments, complaints, or requests, you know who to bring them to.

All of that stuff goes into making this section really...something. I'm not sure what that something is yet, so you'll have to keep an eye on us and find out for yourself

allison lamon

"I'm serious, even about the fruitcake"

MISTER BOFFO

by Joe Martin

IN THE BLEACHERS

By Steve Moore

"Yo, Sid! Go get sheared. We're 'skins.'"

THE FAR SIDE

By GARY LARSON

"Those snakes? Oh, they're just signing, honey."

Wendy's

IS WHERE IT'S AT...

Apply at any of the Four Lincoln Locations

And Now...

A word from our sponsor

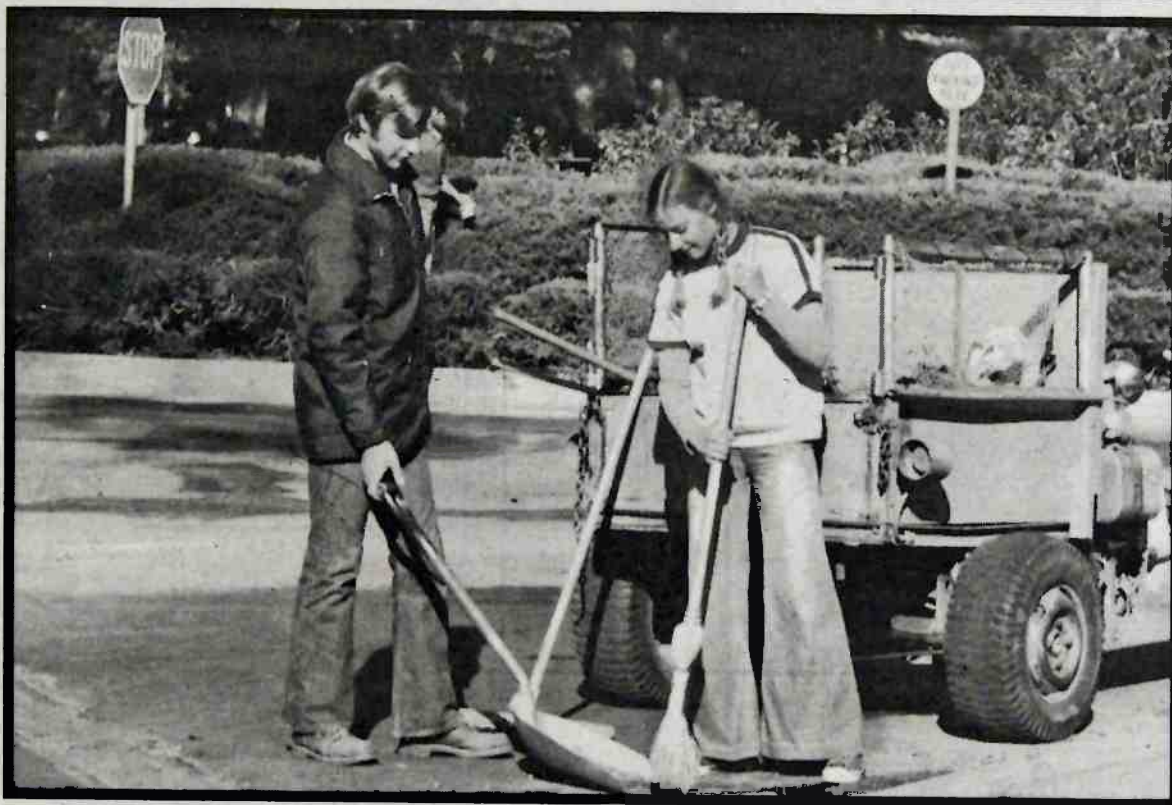

Matriculate: To enroll in a college or university.

Example: We won't know what our official enrollment figures are this fall until all students have matriculated into the system.

WANTED

join the staff today

boys and girls!

The clocktower you are holding right now was designed especially for you and your needs! If you have questions, comments, gripes, please, please let us know. We can't fix it unless we know about it. We welcome any suggestions. And by all means, get involved. You can't gripe to us unless you are willing to help us!
Just kidding, but it would be nice of you!

Because just like a wise, old man once said. Communication is the key to life.

All comments can be directed to the clocktower office. E-mail us @ clocktower.edu or phone us at 2091, and leave a message.
