No. 11

1956 "Cumberland Echoes" Are Here

Students Accept Teaching Positions

Several conference superintendents of education have been in touch with Mrs. Simmons this summer, pleading for good elementary teachers.

To date the following have been placed: Mr. Lorin Mixon to Ocala, Florida, Miss Carol Burchard to Dyersburg, Tennessee, and Miss June Meyers to York, Pennsylvania. Miss Myrtle Bain, Miss Elaine Culpepper, Mrs. Bessie Burnett, Mr. Mervin Ernst, Mr. Floyd McDaniel, and Mr. and Mrs. Donald Riffel have been contacted concerning teaching. A school is waiting for each of them.

It is hoped by the staff of the Elementary Education Department that a large number of qualified teachers will continue to go forth from Madison College, which is the newer name for Nashville Agricultural and Normal Institute.

—ASMC—

Air Conditioners Placed in Classrooms

Air-conditioned classrooms at Madison College are well on the way to being reality, thanks to the efforts of the Student-Faculty Government Committee, which began working on its project early in June.

Already classes are meeting in the cool library classroom, which boasts a ton-and-a-half air conditioner. The next room to enjoy the benefits of cool air is to be the faculty room, which is the usual meeting place for the larger classes of the college, besides being the place of meeting for the faculty, many committees, the board, and youth's Sabbath school. The weekly prayer meeting may also be held here.

With the exception of the general Sabbath services, it will be possible for all gatherings, classes and otherwise, to meet during the hot summer months in air-conditioned rooms. Besides, students who wish may study evenings in the cool room off the library.

"We wanted to do something constructive," the Government Committee explained, "something besides telling people they were

Ceremony Caps 16 Freshman Nurses

Horace Hudson, Pat Grismore, Gloria Denslow, Karen Hücke, Bob Roach, Imogene Lemacks, Shirley Weesner, Joyce Bowe, Martha Jones, Mrs. George West, Pat Wells, Ramona Scott, Louise Maxwell, Hubert Mills, Carolyn Berrier, Mary Peek, Shirley Hancock

Sixteen freshman nurses received caps and insignia in an impressive service held in Helen Funk Assembly Hall on Sunday evening, July 8.

A special feature of the program was the honoring of two members of early graduating classes, both of whom are living on the campus and are still employed at the Sanitarium. Miss Elizabeth Windhorst, who graduated in 1920, and Mrs. Edna Face, a graduate of the Class of '23, were dressed in long-sleeved, ankle-length uniforms worn when they were student nurses. After Miss Shirley Weesner, a member of the new class, presented these nurses to the audience, she told of nurses' duties in the Sanitarium during those early days and then presented the two with small gifts.

The address was given by Elder R. R. Hegstad, of the Southern Publishing Association, who spoke on the high calling of the nurse. Special music was presented by a ladies' trio composed of Pat Silver, JoAnn Gibbons, and Dorothy Ackerman and by Bill Howard. Others who addressed the nurses were Dr. Jean Slate and Mrs. Doris Clapp.

After the nurses received their caps and insignia they lighted their their candles from the candle of Florence Nightingale, represented by Mrs. Mary Jane West, R.N.

Another feature of the program was the presentation of a New Testament to each nurse by a representative of the Gideon Society.

After the evening's program was over, the newly-capped nurses were entertained at a reception held on the lawn of Mrs. Teckla Wilson's home.

This is the second class of freshman nurses to be received into the full status of their profession during 1956, another class of twenty-six having been capped in January.

campus-bound or meting out other restrictions."

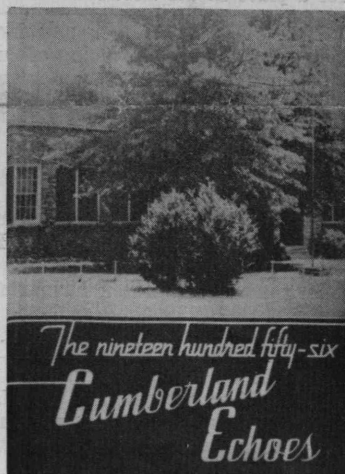

Doctors, ministers, teachers, workers, and students are donating liberally to make possible the purchase of three air conditioners, the project for this summer.

However, funds are still needed to bring the project to completion, and contributions from friends are solicited. Send your gifts to the Government Committee, Madison College, and designate that the money is for the air conditioners.

The *Cumberland Echoes* staff of 1956 will be happy to present the annual for the 1955-56 school year early in August.

For the first time in the annual history of Madison College, the cover of the annual features a photograph of the Demonstration Building, in green duotone. The end sheets consist of photos of Fall Creek Falls and the Cumberland River, and the first eight pages of photographs of the campus buildings are all in green duotone. The annual staff has tried to do Madison College justice in putting out this annual.

Carolyn Berrier and Shirley Burk,

representing the annual staff, with Floyd McDaniel and Mr. Duane Higgins, treasurer of Madison College and Hospital and Sanitarium, left recently for Topeka, Kansas, to get the annuals from the Myers Yearbook Company. While there, the group made their headquarters at the farm of Duane Higgins' parents, Mr. and Mrs. Earl Higgins.

They spent Friday morning sleeping and helping with the farm chores. Friday afternoon they made a tour of the printing plant, and then they cargoed the 1,000 annuals in a trailer.

Sabbath the group attended the Seventh-day Adventist church in Topeka. There they met some prospective students for Madison College.

The weary group arrived back at Madison College at 3 p.m. Sunday, ready for some sleep.

Wedding Bells

On July 7, Miss Marge Swallow became the bride of Jack Dyer at the home of the groom's parents, five miles north of Magazine, Arkansas. Relatives and friends of the family met to witness the ceremony on the lawn under the cedar and crepe myrtle trees, fragrant with perfume.

Jack and Marge have been students at Madison College the past two years. They plan to continue their college work to further prepare themselves for a place in the Lord's work.

Miss Christina Warner and Mr. Clinton Johnson were married on the evening of July 4 in a beautiful ceremony conducted in the Sanitarium parlor. Elder O. J. Mills, pastor of the College church, performed the ceremony.

Miss Virginia Warner, sister of the bride, was the bridesmaid, and Eugene Harrison was best man. Little Phillip Mills was Bible boy and Patricia McDonald the flower girl. Special music was furnished by Clyde Holland, who sang "O Perfect Love," and by Bill Howard, who sang "The Wedding Prayer."

Mr. and Mrs. Johnson have resumed their school work at the college, where he is an X-ray and Lab student and she a nursing student.

Note: Information concerning a number of other weddings has not reached the MADISONIAN office in time for this paper. It is not intentional that any have been omitted. We hope we shall have the information for the next issue.

STARCH and STRIPES

To all you sun-tanned vacationers we would like to say, "Welcome back!" The campus was getting a bit too quiet and peaceful, except around the hospital, of course, where things were really buzzing!

We may not have had "the sox" worked off us, as it was rumored that Mrs. Vaughan had promised, but with only a "skeleton crew" on duty on most of the floors during the month of June, there was no time for loafing. Even the clinical instructors, who were doing vacation relief, were doing everything from giving bed baths to acting as head nurses and supervisors!

Since there were no classes (except for a few short courses), there was ample opportunity for doing special duty, and a number of wallets seem to have lost their gaunt look, at least temporarily.

It was with regret that we bade farewell to one of our R.N.'s, Miss Beulah Vickers, and her brother, Eldon, who left for California, recently. A farewell party in her honor was given at the home of Miss Windhorst by the nursing faculty, graduate nurses, and nursing students before she left. The Nursing Education Department has greatly appreciated the fine work Miss Vickers has done as clinical instructor and Nursing Arts instructor since her graduation in 1953. For some time Miss Vickers had been anxious to return to California, which is actually her home state, but had stayed longer at the request of the faculty. She plans to enroll at Walla Walla College this fall to work on her Master's degree in Nursing Education.

Four students have been affiliating in Urology Nursing at Mid-State Baptist Hospital in Nashville since June 4. They are Gilbert

Jorgensen, Thomas Linville, Steve Dorosh, and Gerald Turnbull.

The five students who affiliated in Pediatrics at Cincinnati during the Spring Quarter are now back on our campus again. They are Wanda Thomas, Helen Pearson, Imogene Meeks, Martha Tinnon and Laura Egger. On July 2 Laveta Graves, Ann Cantrell, Leona Reeve, Evelyn Meyers, Pat Lawry, and Althea Turnbull left to replace them. It sounds as if there will be some lonesome husbands this summer, or will it be wives?

Mrs. Leona Reeve is a junior student who transferred here from the St. Helena Hospital School of Nursing the first of June. Her husband, Leo, plans to major in Industrial Arts. We hope the Reeves will feel welcome here at Madison College.

The Fourth of July celebration must have been too much for Doris Powell, who appeared in the sick list quite unexpectedly, and was

Delta Nu Zeta...

Elizabeth Page

We wish you could all meet our wonderful new dean of women, Mrs. Socol, who, with her husband and two children, has just returned from the mission field. We girls have tried to let her know how happy we are to have her with us. Recently a beautiful bouquet of flowers, compliments of Mrs. Hardin, expressed warm greetings to our dean.

You can hardly visit any department on the campus without seeing a new face these days. Some of us are renewing old acquaintances, but most of us are busy making new friends. We're happy to have all the new girls join our sisterhood.

Petra Sukau received a delightful surprise on her birthday—a gorgeous basket of flowers from (you know who) Aunt Sarah.

Williams Hall has lost two more girls, Dot Lewis and Christina Warner, who are now Mrs. Donald Riffel and Mrs. Clinton Johnson. We wish you both much happiness as you begin your new adventure.

It is nice to see so many of the nurses back from vacation and also the girls from affiliation in Cincinnati. Good luck to those who just left for the Children's Hospital.

Many girls are sporting beautiful suntans and—oops! Can't touch Jackie Schlotthauer's burnt back.

Joan and Christine Perkins had visitors while on vacation in Arkansas. They were Glenda Luzader, Jackie Schlotthauer, and George Roach.

Wasiota Whispers

Dean Wike

Here's a welcome to the ten new fellows who have joined our ranks. They're here for both work and study this summer.

Clyde Holland substituted for a few weeks for our dean, Theo Williams, who was away on vacation.

Just at present the swimming pool is an active place, where Wasiotans, Delta Nu Zetans, and resident families enjoy that regular plunge. Jan Rushing, college sophomore, is in charge of the swimming pool for the summer.

Richard Kunau was one of the eight cadets who took officers' training at Camp Desmond Doss, Grand Ledge, Michigan, held June 26-July 10. Richard is now counseling at Junior Camp at Highland Academy.

Gene Henderson has been monitoring while Richard Kunau has been away. He's been doing a good job; after all, he's one of those big Texans.

Fellows, how about having an outing some weekend? Come on, let's do something besides work and study.

How did you like that fine joint worship the girls gave us not long ago? Let's have just as good a one for them.

Mary Kate Gafford

Greater even than the disaster presented in the preceding issue of the MADISONIAN—the sinking of the *Titanic*—is the destruction of Hiroshima by the first atomic bomb to be exploded on a "live target."

Michihiko Hachiya, a Japanese physician, in his *Hiroshima Diary*, gives us a day-by-day eye-witness account of the bombing of this important Japanese city, and the seven weeks that followed. Dr. Hachiya, director of a hospital in Hiroshima, was himself wounded, and his hospital gutted by fire from the blast. How he kept the hospital going and how he treated the patients which overflowed the hospital is something of a miracle.

Here, in his own words, is how this unforgettable event started: "The hour was early; the morning still, warm, and beautiful. . . . Clad in drawers and undershirt, I was sprawled on the living room floor exhausted because I had just spent a sleepless night on duty as an air warden in the hospital.

"Suddenly, a strong flash of light startled me—and then another. . . . Garden shadows disappeared. The view where a moment before all had been so bright and sunny was now dark and hazy. Through swirling dust I could barely discern a wooden column that had supported one corner of my house. It was leaning crazily, and the roof sagged dangerously.

"Moving instinctively, I tried to escape, but rubble and fallen timbers barred the way. By picking my way cautiously I . . . stepped down into my garden. A profound weakness overcame me, so I stopped to regain my strength. To my surprise I discovered that I was completely naked."

Interesting? So are all the other pages of this remarkable book. Nurses and other medical personnel will undoubtedly be interested in the medical phase of the disaster, the symptoms created by the blast, and the care of the injured. The call number is 940.544 H11h.

admitted to the hospital that evening. We are glad that she made a speedy recovery and is back at her duties.

The clinical instructors' office has had a change in secretaries this summer. Shirley Burk left us the first of June to go to work in the Pharmacy. Mary Mixon is now filling the vacancy, and we are very glad for her help.

—ASMC—

Church School Fills Staff Positions

The faculty of the Madison College Church School has been chosen as follows: Principal and teacher for grades seven and eight, Mr. William Barney; grades five and six, Mr. Charles Tetz; grades three and four, Miss Dorothy

(Continued on page 3)

Pre-school Sponsors Disney's African Lion

The showing of the Walt Disney technicolor film, "The African Lion," sponsored by Mrs. Gilbert Johnson and her associates in the pre-school, was an outstanding success and will help the pre-school financially. This was the first time this feature-length film had been shown in this area.

"The African Lion" is Disney's latest feature-length, true-life adventure film. It has been acclaimed one of the greatest films ever made of the king of beasts in his natural habitat.

Throughout the entire two hours of film there were exciting adventures depicting the various habits of the many birds and animals of Central Africa such as the giraffe, hippo, elephant, cheetah, jackal, and dog. Probably the most exciting adventure was that of the king of beasts capturing his prey for food in order that his family might survive. The picture was shown from a 35-mm. arc-light projector for greater brilliance and clarity.

"The African Lion" was the third in a series of Disney's true-life adventure films shown here. It is the second Disney film presented as a pre-school benefit, "The Living Desert" being shown by them last fall.

—ASMC—

Blue Notes

Edna Thornton

July and August—vacation months for most students—bring a "Back to School" movement for many Madison students who want to earn those extra credits eventually needed for graduation.

We know of at least one student who is glad to be in school again. Marie Branchley says she "likes to study." Marie found out that the Music Department is one of the coolest spots on the campus and visited here several times a day during vacation.

Mrs. Ackerman added to her summer wardrobe while visiting her parents, Elder and Mrs. I. M. Evans at Little Rock. She is really proud of the new dresses she and her mother made. Unfortunately Elder Ackerman was in the throes of studying for exams at the time and was unable to accompany her.

Professor Cossentine, new Music Department head, is getting settled in the department and in the community. In addition to teaching he plans to take classwork at Peabody this summer.

We wondered why Mrs. Ackerman was planning to teach at home during the summer—that is, until we learned that she has an air conditioner. Our department is cool, but not *that* cool, so we don't blame her!

Piano students will be pleased to learn that during his stay on the campus, Vincent Mitzelfelt tuned pianos in our department as well as in the community. Sounds emanating from the practice rooms will henceforth be more euphonic—we hope!

Madison College Welcomes Dean; Music Department Head

Madison welcomes to the campus its new dean of women, Mrs. Helen Socol, her husband, Mr. O. S. Socol, and two children, Joddy, 9, and Judy, 6, who have just come from Lima, Peru, where for eight years they have been connected with the Good Hope Clinic. Mr. Socol has been anesthetist and head of the Laboratory and X-ray Department.

Mrs. Socol, the former Helen Biggs, received her B.S. from Madison College in 1939, going from here to White Memorial Hospital, where she finished her course in Medical Technology. Here she met Mr. Socol, who at the time was head of the Histology Department in this hospital.

After graduation and marriage, she and her husband operated a private laboratory at Beverly Hills. Then he was called to the Army, serving three and one-half years in the Panama Canal Zone as head of the laboratory at Cristobal.

After leaving the army, the Socols set up a laboratory in Hot Springs, Arkansas. It was while here that they received their call to the mission field.

Mr. Socol is here at Madison for further study in Anesthesiology. The College is happy that Mrs. Socol has accepted the call to be dean of women. Her cheerful, radiant personality and her interest in young women and their problems have already endeared her to the girls in Williams Hall.

It's Tuesday afternoon—choir time. The choir members chat pleasantly while they wait for the new choir director to arrive. Ah, here he is now. He takes his place and spends a few moments associating names with faces. Then he says, "If I may have your attention . . . let us have a word of prayer before we begin . . ." In the sudden silence a short prayer follows, and thus begins the first rehearsal of the summer choir under the direction of Professor Francis R. Cossentine, Madison College's new Music Department head.

Mr. Cossentine comes from a missionary family which spent 21 years in China. He himself was born in Manchuria and received his elementary education at the Far Eastern Academy in Shanghai, China. Here he began his first formal work in music, studying piano and violin under Minnie Iverson Wood. His mother gave him his early music training in piano. Having few playmates as a child, he says his piano took the place of a playmate.

When his family returned to America, he entered the ninth grade at Walla Walla Academy and completed his academy work at La Sierra Academy. Although he majored in religion at Pacific Union College and La Sierra College, where he graduated in 1947, he completed his music major the following year. He received his Master of Music degree from Northwestern University at Evanston, Illinois, in 1953.

It is interesting to note that Mr. Cossentine's education was received largely in the western half of the United States, while his teaching experience has been gained almost entirely in the eastern half—at Enterprise Academy, Forest Lake Academy, and Southern Missionary College, where he was director of vocal and choral activities prior to his coming to Madison.

He has been privileged to attend several noted summer workshops and choir schools, among them the Fred Waring Workshop, the Westminster Choir School under the direction of John Finley Williamson, the Paul Christianson Choir School, and the Northwestern Summer Choir under the direction of George Howerton.

Mr. Cossentine's hobby is not unrelated to music—hi-fidelity equipment and a growing record collection.

His wife, the former Shirley Franklin, is a graduate of Pacific Union College, majoring in piano. They have two children—Sharon, six and one-half years old, and Charles, one and one-half.

Of the Music Department, Mr. Cossentine says, "It shows thought and planning. I am impressed with its possibilities. I want the progress to continue. My associates and I will do all in our power to make the Music Department of real benefit to the students and to the community."

—ASMC—

Paintings Given to Dorm

Mrs. Kathryn Bertram, art teacher, has just finished two oil paintings, each 4 x 5 feet in size, which she is presenting to the young men for their parlor in Men's Court.

The pictures are landscapes, one a scene of the Northwest, with a snow-capped mountain in the background, a stream, trees, and flowers, and the other a Southern spring scene, similar to what might be found in Tennessee—verdure-covered mountains, a lake, and trees.

—ASMC—

Bordeaux M.V. Features Madisonites

A group of teachers and students from the college gave a young people's program at the Bordeaux church recently. The main feature of the program was a talk by Mrs. Marion S. Simmons on "Witnessing for God." Three students played piano solos—Ernest Plata, Sylvia Burk, and Luz Aeschlimann. Dean Wike and Mr. William Barney, the new principal of the church school, sang.

—ASMC—

Beginning July 31, the post office at Madison College becomes a branch of the post office at Madison. Therefore the address of the college will be Madison College, Madison, Tennessee.

Demonstration School Holds Summer Session

Between the dates of June 20 and July 20, from 8 to 12 a.m., a summer school was in session in grades two through seven. Twenty pupils were enrolled. Mrs. Marion S. Simmons, director of Elementary Teacher Education, was in charge, with Mrs. Betty Harter as teacher. A small tuition fee from each enrollee made the school self-supporting.

Not only was this summer session a help to the pupils to retain previous learnings, and to have special help in remedial work, but ten teachers observed and participated in the demonstration school. These student teachers led out in the devotional exercises each morning, taught specific subjects as handwriting, arithmetic, and English to the entire group, and also devoted one hour daily in helping individuals who needed extra help in subjects hard for them to master. For this work the student-teacher earned three hours of college credit observation and directed teaching.

Those associated with Mrs. Harter were Bessie Burnett, Catherine Gray, Ruth Wheeler, June Meyers, Ruby Sykes, Mary Astor, Lyle Gray, Lorin Mixon, Mervin Ernst, and William Barney.

An added attraction during the school day was ceramics. Each pupil and student made, glazed, and fired one or two objects. The children also did some work in metal crafts. These articles were on display the last day of school, as well as all school papers written by the children during the session.

The pupils invited their parents and the public to a closing program and baked food sale on July 20. The food sale netted \$32.26. The proceeds of this sale will be used to purchase a record player for the Madison College Church School.

Because this new feature on the campus was such a success, plans are already being laid for the summer of '57.

—ASMC—

New Arrivals

To Mr. and Mrs. Harold Kepingler, a girl, Sheila Jean, six pounds, eleven ounces, on May 21.

To Mr. and Mrs. Ronald Werner, a girl, Cheryl Marie, eight pounds, on May 22.

To Mr. and Mrs. William Rosel, a girl, Jan Louise, eight pounds, five ounces, on June 29.

To Mr. and Mrs. Robert Loder, a girl, Susan Denise, six pounds, one ounce, on July 1.

—ASMC—

Church School

(Continued from page 2)

Matthews; and grades one and two, Mrs. Catherine Gray.

A new school is to be opened at the Boulevard Church with two teachers, namely, Mrs. Salma Mohr, grades one through four, and Mrs. Yvonne Gray, grades five through eight.

New Record For Summer Enrollment

The summer session of the school year is in full swing, with a total of 227 students enrolled. New students have come all the way from Canada to Cuba, from as far west as California, and as far east as Pennsylvania and Massachusetts.

British Columbia has sent the largest number—five. They are Mrs. Bertha Warner (mother of David and Christina) and two daughters Virginia and Davina, Isla Esplin, and Leonard Drebert. Luz Aeschlimann, born in Chile

where her parents were missionaries, comes from Cuba.

Others from distant parts of the United States are Harry Fields and Mary Lou Coleman from Colorado, Julia Keller from California, Jeanie Mills from Arizona, and Barbara Pickel from Lincoln, Nebraska.

As usual, the Department of Nursing claims the largest enrollment. Other departments in the lead are X-ray and Medical Technology and Education.

Madisonites' Articles Appear in Publications

Every now and then Madisonites see articles written by students and former students as they leaf through the *Instructor* and other periodicals.

Wenonah Ramsey (now Mrs. Glenn Belk) is the author of an article entitled "Mother's Love," which appeared in the July 3 *Instructor*.

A professional magazine, *The American Journal of Nursing*, printed in its July issue a letter to the editor by Myrle Tabler, R.N., Class of '54, on the opportunities that come to nurses, as well as to chaplains, to give spiritual counsel and encouragement to patients.

Alyce Williams received an acceptance letter and check for a Pen League story she wrote for the *Junior Guide*.

Edna Atkin Pepper, head of Madison's Secretarial Department, is a frequent contributor to denominational periodicals. An article entitled "Accepted" appeared in the July 24 *Youth's Instructor*.

—ASMC—

Chapel Features Music

Mr. Francis Cossentine, new head of the Music Department, conducted a music appreciation hour at the chapel service on Monday, July 16. He played records which introduced the various instruments of the orchestra. He invited the students to join the musical organizations of the College, and, if they could not play, to learn to play some instrument. The Music Department owns an assortment of instruments, which students may use while they are learning to play.
