Few of us, when we read the material in these pages and complain because so little of it is fresh news realize or stop to think of the whole purpose of the CLOCK TOWER.

The CLOCK TOWER is the school paper, but .. is more than a mere news sheet recording the daily events of the campus. Its circulation to subscribers not enrolled in the college equals twice the number of students readers. These people in surrounding states are interested in Union college. Some of them are parents of students enrolled here, but even they want to know more about the school than that six Johnnies and six Mary's-and two chaperones-went on a skating party, or that Susan or Donald was in the infirmary two days. Those incidents are told in letters that the Johnny's, Mary's, Susan's, and Donald's write home.

But the news others like to know about includes the items to the effect that Elder So and So conducted fall devotions last week; a local business man gave money for the erection of a new industrial building. They want an honest advertisement, a true picture of what is happening at Union that will be of lasting influence. Maybe skating parties and chest coughs develop complications, but they are of individual concern.

Because we don't write home often enough mentioning chapel talks and inspiring sermons doesn't necessarily mean that we don't appreciate them. They leave their good impressions on us. We should be glad that the CLOCK TOWER will tell our friends, our relatives, and others who are Union-conscious the news we omit.

This is your paper, as you have been told repeatedly. Read it, discuss it, but don't criticize it without first thinking of the purpose it serves to others who don't live on the campus.

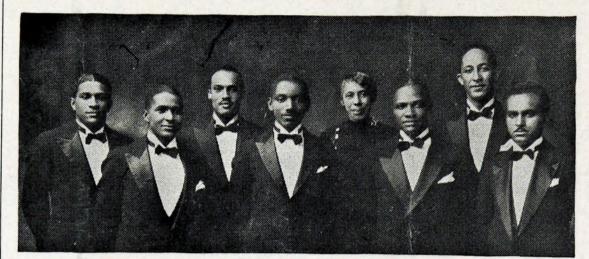

On Being Twenty-One by Dean Grinnell of Indiana State Teachers College

Being twenty-one, coming of age is a stirring experience. Back of one lie the careless days when the fate of men and institutions like church and school and state was left to leaders. Now one comes into his prime heritage-the right and the responsibility to share in the making of a better nation, the preservation of all that is good in nation, state, and community and the alteration of that taineer and explorer. which is no longer good for nation, state, or community.

IOCK BOWER VOL. XIV

LINCOLN, NEBRASKA, OCTOBER 20, 1939

FISK JUBILEE SINGERS APPEAR IN FIRST LYCEUM NUMBER

Fisk Jubilee Group Here From South To Sing Spirituals

Vanderbilt, Lecturer. Washburn, Explorer, Other Lyceum Numbers

The lyceum course for the 1939-40 season has been almost all filled, to date, stated Dr. E. B. Ogden, chairman of the committee in charge of selecting lyceum numbers for the school

Saturday evening, October 21, the Fisk Jubilee singers, a group from the negro university in Nashville, Tennessee, will appear for the first program. The singers, under the direction of Mrs. James A. Myers, have sung with symphony orchestras of Boston, Chicago, and Los Angeles. They are acknowledged by some to be the greatest interpreters of negro spirituals in the world today. Since about 1865, when the college was first established, a group of men, known as the Jubilee singers, has toured from the university, giving concerts every season.

Cornelius Vanderbilt, Jr., who has very recently returned from a tour of the leading European countries, and who will speak of his interviews with such men as Daladier, Goebbels, and Lloyd George, will be present on November 4.

The other lyceum programs will include pictures and an address by the Building" is being watched with infirst man to climb Mount Lucania, in Alaska, Bradford Washburn, moun-

Nationalism in India Explained by Michael, European Secretary

Ghandi's Non-Cooperation and Hindu-Moslem Conflicts Keep Indian Swaraj Away

Extreme nationalism, which is becoming one of the greatest forces in the world today, is especially active in India, declared T. J. Michael, secretary-treasurer of the Central European division, section two, in speaking from a background of several years experience in India to sixty students gathered in the history classroom of Dr. G. D. Hagstotz during the 11:25 class period last Friday. The two main groups in India are the Hindus and Mohammedans; between them there has been almost continuous strife throughout India's history, the speaker stated. The Indians blame much of their trouble on the British, however, and thus they excuse their many vigorous but unsuccessful rebellions against British rule, he said.

Intense nationalistic expression had ts probable beginning in the Indian (Continued on page 3)

Former President **Urges** Appreciation for Heavenly Ties Andreasen Considers

Earthly Relationships Next in Importance

Religion can become real only through complete fellowship with God and frequent expression of one's love for Him. declared Prof. M. L. Andreasen, Union's former president. now instructor at the theological seminary at Washington, D. C., when he spoke in vesper service last Friday evening in the college chapel.

To show how God longs for an expression of man's love for Him, Professor Andreasen used the incident in which Christ asked Peter three times, "Lovest thou me?" Just as human beings desire the affections of one another, the speaker pointed out, so God yearns for the love of His children. Speaking of the soon coming of Christ, he said, "No one is waiting more eagerly for the end to come than is the Lord."

Many pray to God as an official, a judge, a creator, one to be feared instead of one to be loved and communed with as a friend, Professor Andreasen said. By availing themselves of the daily opportunity of communing with Him, he stated, individuals may establish a relationship with the Father which will mean much to them in the years to come.

The speaker urged the students to be more thoughtful of their parents and more appreciative of the sacrifices of their parents. Love and friendships are the things that count on this earth, he said; the things

McElhany Addresses 2000 In Fall Council Session At St. Paul's Cathedral

New Goal Planned for Restricted In Six **Annual Fall Outing** Fun, Food, Fire Predicted For 1939 Hallowe'en Hikers

One of the events every Unionite looks forward to each fall is the Hallowe'en hike, which is scheduled for the night of October 28 this year. Dean Habenicht has stated that plans are being made by a committee chosen recently.

Contrary to custom, the hikers will not go to Roberts' park but to some place not yet definitely decided upon. In accordance with past hikes, the students probably will enlist under various leaders who will conduct their groups to the destination over different routes.

Those who have gone before know that the outing is something to be anticipated. Both the food served and the program of entertainment planned by group leaders will make the evening last in one's memory. (Mr. Little would call that last sentence understatement, possibly ommission of essential details, too.)

Conference Secretary **Discusses World Crisis** Nations Puzzled and Fearful As Economic Systems Clash

Europe's present situation is evidence that modern warfare is not between nations or armies, but between principles and economic systems, according to Dr. W. H. Teesdale, associate secretary of the Educational department of the General Conference, who discussed in the chapel last Murray of the Austral union, and Wednesday morning various phases of H. M. Blunden of the Antillean union. the current world crisis in the light of observations made during his recent difficulties which confronted their mistravels in northern and central Europe. sionary endeavors, but they were en-He believes three main reasons for thusiastic in their reports of the work England's entering the war are to done, and the prospects of further preserve and re-establish compacts, to evangelistic work in the various ter-

Trek Tradition Changed; Missionary Work **European Divisions**

NUMBER 6

Seven Foreign Workers Tell Field Experiences In Mission Symposium

This is the church which will be saved at Christ's second coming, declared J. L. McElhany, president of the General conference of Seventhday Adventists, in his sermon to almost two thousand of the church members in the morning service last Sabbath at the St. Paul's Methodis: church in Lincoln. We members ot this denomination must realize our responsibilities of carrying the message of Christ's second advent to others, the speaker said.

Elder McElhany mentioned that six divisions out of the twelve denominational conferences in Europe were carrying on their missionary work with difficulty under the present governmental restrictions. However, he declared, in our business sessions we have voted to stand by them. A chorus of "amens" answered the speaker's proposal that the members continue to pray for and contribute funds to the workers in Europe.

Missionaries on furlough from foreign countries presented a symposium of ten minute talks in the afternoon meeting of the autumn council held in St, Paul's Methodist church in Lincoln last Sabbath. The speakers, who were introduced by E. D. Dick, secretary of the General conference, were N. W. Dunn from the South American union, M. F. Wiedemann from the Philippine islands, L. D. Minner from Chile, South America, L. C. Wilcox of the South China union, L. Lenk of Hungary, W. E. The men spoke frequently of the

Ex-Presidents Morrison, Griggs, and Andreasen **Attend Alumni Banquet**

The Alumni association of Union college held one of the largest reunions of its history last Thursday night, October 12.

Three former presidents of the colege were among the 165 persons who attended the dinner at the Lindell hotel. The past presidents were Frederic Griggs, who served from 1911 to 1915, H. A. Morrison, president from 1915 to 1922, and M. L. Andreasen, 1931 to 1938. All spoke (Continued on page 3)

Tennis Enthusiasts Organize Club

Forty students of the college and academy met Thursday evening, October 5, to elect a committee for promoting interest in tennis. Committee members chosen are Lottie Ziprick, Edward Seitz, and Lloyd Thomas. They are to act as a governing group and to take charge of keeping the tennis courts in condition. All members of the association will pay dues of fifty cents for the entire year. This will entitle the members to access to the courts both this fall and next spring.

The courts are now being fixed, it is reported, and a few of the tennis enthusiasts are already using them.

Personnel Staff Aids Students in Registration and Personal Problems

The personnel service, carried on by a staff of ten faculty advisors and the two dormitory deans, with G. W. Habenicht as chairman, and offered by the college to the lower division students, constitutes an important phase of the college curriculum. The advisors are: Dr. G. C. Jorgensen, Dr. E. N. Dick, Dr. E. B. Ogden, Dr. H. G. Reinmuth, Dr. G. D. Hagstotz, Hilda Boettcher Hagstotz, Ivamae Small Hilts, Catherine Shepherd, Irma Watt, and Dorothy Sampson.

During registration the advisors assisted the students in lining up their programs for the semester. The student may make an appointment at any time with his advisor. And if at any time the personnel staff feels that a student needs help he is asked to call at the office of his advisor. Another part of the personnel work is and of the testing program for fresh the supervision of Freshman week

The aim of the personnel staff is to all college surroundings.

Sabbath School Lessons

One of the greatest failures in our college life today is in our study of the spiritual side of our natures. It is not to be understood by this that we do not study the Bible, but that we do not study the Bible enough. Naturally this brings up the question of how and what to study. We have our religion classes, but many of us are not taking classes in religion this year. These people need some efficient, organized method of study which will create the greatest familiarity with the Scriptures in the least possible time. This opportunity for study is given to us through the Sabbath school lesson quarterly. We buy these quarterlies, so why should we lay them aside or use them but once or twice each week?

Last Sabbath, in her report of the previous week, the secretary of the Sabbath school stated very forcefully that we are neglectful in this important phase of our education.

Why don't we get behind the leaders and support them and at the same time increase our own fund of Biblical knowledge?

Use Your Brains, Think!

Would you expect to type eighty words a minute if you never practiced on the typewriter? Would you expect to be ping-pong "champ" if you played once a month? Do you expect those bicepts to develop without ever using them?

The supposition is that we come to college to learn to think for ourselves. Yet we find ourselves thinking that teachers are unreasonable because they sometimes expect us to formulate our own ideas and opinions about things that aren't discussed fully in our textbooks. We expect everything to be all thought out for us so that we need only digest others' ideas.

Ability to think is a talent given to each of us. If we were mentally incapable of reasoning things out, formulating our own opinions, and reaching our own conclusions, we probably should consider it the blight of our lives. Yet we continue to do slip-shod thinking. to take someone else's word for things, and to have astonishingly vague ideas on everything in general, just because we haven't exercised our brains enough to get clear-cut, definite results.

Medical Corps

The Union college Medical corps gave a fine demonstration last Sunday afternoon out on the drill field. Our visitors appreciated the neat appearance and the snappy drill of the men.

We should consider that many of these men have never before had any drill practice and that others of them have not drilled for two years or more.

Medical corps training, apart from its value as an aid to our young men in obtaining non-combatant service in event of war, is of inestimable value. It promotes proper posture. snappy movement, keen attention, and quick thinking. In short, it makes the participants better men. We should be proud of the Medical corps, and we should be proud that the idea originated here on our campus a few years ago.

Fifty-six Enrolled in Academy This Semester; Seven Practice Teachers

The Union college academy has begun the school year with fifty-six students enrolled, thirty girls, and twenty-six boys, of whom all but five live in College View. It is interesting to know that the average age of the academic students is 161/2 years. F. E. Bresee, principal of the acad-

emy, states that the students are loyal, studious, and enterprising, and that they hold high scholastic, religious, and social standards.

Howell, and Elder C. A. Mock.

the girls, are usually spent playing volleyball or basketball. Faculty sponsors for the recreation periods are Miss Sonnenberg and Mr. Holmes. Members of the faculty are Mr. Bresee, principal and instructor in history and religion; Professor Holmes, instructor in mathematics and science; Mrs. Hill, instructor in English; Miss Sonnenberg, instructor in French, religion, and history; Miss Watt, instructor in business; and Professor

Harvest Ingathering at "X" By CELIA JOHNSON

Did I go Harvest Ingathering? Well, | at home was there because he didn't should say I did! I wouldn't have any nickels.

have missed it for anything. Last year I stayed at home and felt sorry I went and felt sorry for those who stayed at home. We'll say the name of the town we

went to was "X," because that's the way they do in books. As we -but not for us, you understandand we discovered that the celebration of the 65th anniversary of the foundof "x" was in progress. (The anniversary is really in October, "but the weather might be bad then.")

A ferris wheel, a hamburger stand, the Thomas Brothers' side show, a stand of kewpie dolls, and a kiddie ride littered up the street. Women and girls were trying to progress up the streets in their great-grandmothers' hoop-skirted wedding gowns. The men had funny things on their faces- you know, sideburns, beards, goatees, mustaches, etc.

"A pleasant time was had by all," but not much money showed up, so for those who went, but this year after we'd discovered that the cannon in the city park weren't loaded and had eaten (one of the fellows had

54c worth, but I won't tell who), we moved to the country, got out an accordion, a cornet, a solicitor, a socame into "X" the band was playing prano, an alto, and a tenor, and went to work.

Lots happened. Besides getting money we got a sack of potatoes and mouths full of dirt. Oh, yes, someone thought we were selling magazines to get to college.

We didn't go just for the good time; we went to help garner in funds for God's work.

Now, don't ask me whether I had a good time Harvest Ingathering. To admit it would be rank understatement of fact.

He who has a thousand friends

And I'm going again next year.

Basketball Season Opens

perfectly good basketball game last Saturday night, and we don't know how to report it properly. We can announce the final score, we can list the players and give their respective positions, and we can tell you that Herman Kicenske's band furnished music and an excited group of lower classmen supplied cheers for their team; but we can't report how this forward played in his inimitable style and that guard showed his agility in keeping away from his man-oh, no-guards guard people, don't they?

You see what kind of account this will be. Journalism books say that sports writers must show enough "particularized knowledge to gain and hold the confidence of the reader who is deeply versed in certain sports." Well, to begin:

In the first basketball game of the season, the upperclassmen won from the lower-class team, 19 to 9, last Saturday evening in the gymnasium. (As nearly as I can tell, that's orthodox news writing.)

Players on the winning team were Elmer Wasemiller and Ray Stewart,

Moon and Prince Conduct Medical Examinations

Along with quarterly examinations, which have made some students wish they had a little midnight oil to burn, has come another type of examinations which require little foreknowledge-the less the better a few thought. Students have entered the North hall recreation room all in a dither about whether or not they would pass their health examinations. Clamoring voices ask, "What is normal vision? How much should I weigh? Is my blood pressure too high? What should my hemoglobin be? At least eighty-eighty what?"

Under the calm demeanor of some, Ruth Simon, women's nurse, searched out pounding hearts. Leonard Rogers, even after being reassured, wasn't altogether convinced that he didn't have heart trouble.

No one actually slid under the table when his or her arm was punctured, but some did turn pale. Judging by Peggy Smith's grimaces she considered her ordeal a major operation. Dr. Moon and Dr. Prince, both of Boulder sanitarium in Colorado, were the physicians officiating. They patiently looked for missing tonsils, stray chest rattles, and extra heart beats. Dr. Prince asked Dr. Moon, "Why, when I examine these people's noses, do they start to open their mouths?"

Florence Hash, men's nurse, who officiated at the table where syringes, needles, and slides were cleaned and resterilized, wondered why the doctors ask the women to giggle instead of cough. The cough usually end in

Kiley ought to be here. We had a | forwards; Bill Hill, Preston Neff, and Ray Lewis, guards (at one time or another, and two at a time;) and Ed Seitz, center.

The lower-class team consisted of the following men: Carlyle Cornell, Gordon Stout, Lowell Barger, Jack Guy, Obie Hicks, Ethredge Williams, and one or two others. (You see, they substituted so frequently we couldn't be sure of the players; then too, I'm an upperclassman.)

In the fear that this is already too amateurish, I'll refrain from commenting on the style of playing. It should be all according to Hoyle, or Lancis or whoever lays down the law about sports reporting, to write that everyone of the spectators obviously enjoyed the game.

We hesitate to put this in the sports column, but, as the editor wrote in her column, be charitable and slow to criticize items that other people may not even read-or was that what it said?

Now, don't you agree that Kiley should be here? Fine, I thought you should by now!

Our faults are as a grain of sand beside the great mountain of the mercies of God .- Jean B. Vianney.

End to End . . .

Two Union college men are prominently featured in the new Lincoln city directory. They are Maynard Aaby of Missouri and Gordon Zytkoskee of Minnesota, both junior students here. Yes, you've guessed it;

Let's use our brains at least often enough so that they won't be strained when we occasionally try to over-exercise them.

Thoughts, Opinions, Judgements

"My mind to me a kingdom is," but it isn't an absolute monarchy where unruly thoughts are forever banished to gloomy darkness. What would people be like if they couldn't think? Thinking must be one of the characteristics which makes human beings human.

In order to read this, you have to think, you must use your memory to recall word meanings, and you will use your judgment to form an opinion of what you have read.

Opinions are complicated thoughts. Someone said recently, "I don't trust my opinins, especially the first ones. Ever since the day when I gladly changed my opinion of an individual whom I had believed to be rather simple-minded and shallow, I've been cautious in forming opinions."

We should be willing to change our minds about people and facts. Possibly some of us might not be here if we hadn't reversed our ideas of Christians and Christianity. We must think for ourselves, but we must not pour our thoughts into fixed moulds and refuse to change them if the patterns change.

We decided there must be a lot of money in town and went out to get it, but every time we mentioned that evidence of prosperity to a storekeeper, he'd pull his glasses down on his nose and grunt, "That don't spell nuthin', nuthin' a'tall!" And anybody who happened to be

Has not a friend to spare, And he who has one enemy Will meet him everywhere. -Omar Khayyam.

Man must have something higher than himself to think of! -Longfellow.

This year when you hear a fellow speak of "her," he may not mean one special person. There are five of them -the Herrs. Do you know them? They are all short, blond music-lovers from North Dakota.

A little information first: Lydia and Elsie are Ted's sisters, and Ernest and Elmer are brothers, cousins to the other three.

Ted has been at Union the longest. He's a junior, a ministerial student, and South hall night clerk. He has dimples; he likes Greek, symphonies, and violin music. After a struggle, he has learned to dislike cowboy music. Ted also dislikes to hear the stillness of the night broken by a moan, or perhaps a snore; it's weird, he says. He thinks the boys are nicer this year than last-so far, no pail of water has descended on his head as he checks dust closets. Ted enjoys swinging the baton and singing.

What he likes best to eat, it appears, is whatever isn't being served on deck.

a strangled giggle anyway.

Lloyd Thomas, in addition to acting as master of ceremonies, even went out to the library and dormitory to recruit victims when the men's waiting list ran low.

Although the results of the examinations have not been tabulated, it is

People

Lydia doesn't like spinach, but could eat bushels of cookies. She and her sister both graduated last year from Sheyenne River academy, where Elsie says Lydia partly mastered the gentle art of ice skating. Lydia is taking the pre-nursing course and thinks Survey of Nursing class is lots of fun. Like all the rest of us she just can't figure out where time goes, because it whizzes by so fast.

Elsie had a pleasant surprise when she got to Union. She discovered that there isn't such a world of difference between academy and college life as she had supposed. She likes Union very much. Elsie is taking the two-year normal course. She loves to read, likes to ice skate, hates onions, and finds an outlet for her artistic urge by drawing a picture every day.

theirs are the first and last names in the book.

the opinion of the two doctors that Union college students as a whole are healthy, happy, and sufficiently care free.

Ernest-you know him as "Ernie"is that fellow you noticed at his own private table the night the Knights of 72 had their special table in the dining room. He's the Knights' mascot. Ernie is a sophomore and is taking a business course, working towards a B. A. degree. He plays the trombone, keeps a scrapbook, works in the bookbindery, and likes to read. The following information came from Ted: Ernie has no sisters. Neither has Elmer.

P.S. Ernie likes spinach.

Elmer also graduated from Sheyenne River academy last year. He's going to major in history, and Ernie says he'll be a university professor before long. He works in the bookbindery and plays the bass horn. We haven't heard of any mobbing in South hall, so we presume that he and his brother do their practicing at the proper time and in the proper place.

There they are, the five Herrs. You'll like them!

at the dinner.

network.

Other speakers included A. H. Rulkoetter, present president, Dow Minner of Chile, E. H. Oswald, president of the Northern Union conference, and

J. F. Piper, president of the Central Union coference. Music for the dinner was furnished by C. C. Engel of Nebraska, photographic editor, with and his orchestra.

Union college graduates from all over the world, including several world figures in the denomination, were present, the reunion being held in connection with the autumn countory department. In the past seven cil. Mrs. D. G. Hilts, president of the Alumni association, was in charge.

MISSION PICTURES SHOWN

Pictures of the missionary work in South Africa were shown to an audience in the chapel by W. G. Turner vice-president of the General conference, last Saturday night. Elder Turner recently made a tour of mission fields included in the area from

Mombassa to Nigeria.

Walla Walla Medical Corps Headed by U. C. Alumnus

Orason Lee Brinker, '39, cadet captain of the Union college Medical corps last year, has been elected to the faculty of Walla Walla college. College Place, Washington. He will be a reguar member of the faculty and will be an instructor in Medical corps training.

News Is Important Means Griggs Declares That of Presenting Our Truth Says Press Bureau Head

That the newspaper is an agency provided by God to aid His servants in completing the work of the gospel was the opinion expressed by W. L. of the General conference, when he spoke to students interested in news writing Sunday afternoon in room 201.

The newspapers will print the message of Seventh-day Adventists, Mr. Burgan stated, even though many people think that they will not, but the material must be well-written. "We can gain the favor of the greatest newspapers in the world if we present the news prepared in proper form," he said. He stressed the fact that accuracy and attractive-

ness of style are essential, and he warned against preparing news in a careless, slipshod way and writing in tame, dull manner.

Seventh-day Adventists are becoming better known all the time by means of the press, he pointed out, and multitudes are yet to be reached through the daily and weekly newspapers.

Bob Brown Edits Annual; Yearbook Staff Begins Work on Golden Cords

The Golden Cords staff for the 1940 college yearbook was partly Brown of South Dakota, editor-inchief; Ruth Croak of Minnesota, associate editor; Helen Christensen of General hospital. Minnesota, roster editor; Floyd Byers

Betty Buckley of Minnesota and Altus Hayes of Texas as assistants. Officers previously chosen are Joe

Beckner of Kansas, president and business manager; James Aitken of Nebraska, advertising manager; and Mavis Ching of South Dakota, secretary. Dr. H. G. Reinmuth, head of the foreign language department, by an Englishman who desired to is faculty editorial sponsor, and H. C. Hartman, business manager of the dians to share in the government, college, will act as financial advisor Elder Michael said. Since that time to the staff.

Work on the book has already started. Mr. Brown states that student pictures will be taken in a short time.

COLLEGE STUDENTS SING

Singing bands and instrumental groups went out from the college Saturday night, October 7, in a Harvest Ingathering tour of residence districts in Lincoln. It is reported that they garnered in almost \$86.00 during the evening. This amount, added to the school's total brings the sum very near the goal set at \$1,000.

Michael Warns Against **Extremes in Nationalism** (Continued from page 1)

National congress organized in 1895 train the more intellectual native Inmany great men have developed into leaders of the "Home Rule party," called the Swaraj. The most influential of these men is Ghandi, who sacrificed his own carreer as a lawyer to become worshipped as the

savior of India, and who instituted his famous policies of "non-cooperation," "passive resistance," and "civil disobedience."

In the speaker's opinion there are only two good reasons why Britain still holds India: the Hindu-Moslem hatred and dissension and the influence of Ghandi who will not permit any active revolution.

"Nationalism today is the most dangerous problem we have to deal with in world affairs," Elder Michael

Added Stimulus . . .

We hope you realize

That the 1939 Clock Tower campaign is under way; That our goal is 1200 subs: That the contest is between members of the two dormitories;

That the men and women are equally determined to win this year;

That you will benefit, personally, by obtaining subscriptions for the Clock Tower.

We want you to remember

That in 1927 the average for the faculty was 5.91 subs apiece;

That North hall has usually won subscription contests;

That we intend to make outsiders Union-college-conscious; That enthusiasm and cooperation are

two essentials for group success.
