By Dr. E. M. Hause We are conscious of the sobering fact as we enter the new and economic reconstruction. drives in the college. The following headlines constitute the materials from which these three major problems are deduced:

General George C. Marshall succeeds James Byrnes as Secretary of State for the United States. . . . The Security Council of the United Nations meets again and debates whether to give the question of the control of atomic power, or the question of general disarmament, priority on their agenda. . . . The elections in Poland return an overwhelming communist majority and the Polish government informs the United States that it is her business, not ours, the way her elections are conducted... The British have alerted one hundred thousand armed men, police and soldiers, in Palestine to defeat the forces of the infamous Stern gang.... Rioting in India, dominion status offered to Burma, civil war in Frenchruled Indo-China and between communists in China, Republican congressional leaders consider taking the authority to regulate tariffs from the hands of the President where it was placed by Congress in 1934. Franco completely severed from diplomatic connections with the United Nations.

Panic seizes one when scanpeace and stability. Fortunately as a denomination. should note carefully that where ner, he further declared. economic discontent is rife there propaganda than to deep-seated maladjustments.

has been appointed Assistant to ries of illustrated talks at Union the President of Union College. This is a newly created post which will require him to take complete charge of public relations. His duties will entail the ent body on Monday morning, conducting of campaigns for the school, the servicing of Lincoln and Omaha newspapers and

"It is hoped that through this work in the future we may be able to provide radio programs over the Lincoln stations," Mr. Beaven stated.

Mr. Beaven will continue as head of the departments of Speech and English during the second semester. Mrs. R. W. Fowler will be his assistant in the Speech department. Mr. J P. Fentzling will join the English American literature.

English Department Adds New Member

Professor J. Philip Fentzling has been called to become a member of the Union College English department staff, and will arrive here on January 23.

Mr. Fentzling has been a teacher in our schools for many years, having taught English at the Pacific Union and La Sierra Colleges. From 1925 to 1930 he was the head of the department of English at the Philippine Junior College, which is located in Manila.

Already holding a Master's degree in the field of English, University of Southern Califor-

Woods Addresses

Scouts

To promote a deeper understanding of and appreciation for the background of the Spirit of Prophecy and the part Mrs. Ellen G. White has played in this Advent movement, Elder Arthur L. White, Secretary of the E. G. White Publications Professor Winton H. Beaven Foundation, is conducting a se-College during this week. Elder White presented the ear-

ly background of the movement in his chapel address to the stud-January 20. He further explained this phase during the evening worship period Monday evening, radio stations, and acting as field when he gave an illustrated lecture on the life of Mrs. E. G. White. On Tuesday evening, Elder White described Mrs. White's writings and the part they have played in furthering our work throughout the world field.

ELDER A. L. WHITE

Elder White pointed out how the visions were given to the servant of the Lord, and how the light given in these revelations was presented to others.

During the remainder of the week Elder White will discuss the question of Mrs. White's Mr. Fentzling has done work being influenced by those about neighbor, and friend; how the nia. He comes to Union from denomination has been protected from false teaching and fanaticism by the Spirit of Prophecy in the development of our denominational work; our individual relationship to the Spirit of Prophecy, and related topics. Not only will a large number of colored slides be employed to picture the various steps outlined, but the "Big Bible" which Mrs. White held while receiving a vision from the Lord, will be brought to the college to be shown during the Vesper hour on January 24. Early documents from the publishers' vaults will also be displayed. Sabbath afternoon a round table discussion will be conducted and questions about the life and work of Mrs. E. G. White and the Spirit of Prophecy writings will be answered by Elder White, who has presented The second in a series of six addresses, the lecture was given similar series of meetings in many of our churches and schools under the auspices of the Cornthroughout the nation. husker Council of the Boy Scouts

n.cred as second class matter at the post office at Lincoln, Nebraska, April 5, 1911, Ac of Congress of March 3, 1897. Acceptance for mailing at special rate of postage in Section 1103, Act of October 3, 1117, authorized June 17, 1921. Action periods, and every month during the summer by Union College under the spices of the faculty and students of Union College. Subscription rate: \$1.25 per year.

Oh, if I had only studied last month! If only my outside reading were done. What a time I had Christmas! Am I going to enjoy vacation! And a thousand more! Living in yesterdays,-or tomorrows.

The toughest job a person can tackle is living in To-day! It means quitting things when they're over, not starting others untill they've begun, and living right smack in the middle of the present moment. It's no use to "beef" at To-day and blubber about the "Good old Times," or warm ourselves at old triumphs, or hide ourselves in old griefs. That calls for neither courage nor imagination,-and memories,-they're the perfect excuse and escape, the perfect protection for fear and stupidity, for laziness and conceit. Any spineless sissy can live in Yesterday,-and most of them do. If you live in Yesterday you can enjoy all the advantages of being dead without buying a tombstone,-but, of course, it's a little hard on those who have to lug you around.

And living in Tomorrow is equally soft. Spending one's days dreaming or worrying-that's another number one racket for those who can't take it now.

We're always somewhere else, drifting in Yesterday, or dreaming in Tomorrow, but never busy on the job of To-day. I'm trying Phi to ask God to help me do the thing of To-day, to give me courage to live in the present: the courage to leave my withered laurels and my empty graves, my ancient grudges and my rose-wreathed "Castles In Spain." It's hard to live as life lives, not leaning backward nor peering forward,-but clutching each moment as if it were the last second of time.

May God teach us all to face the problems of To-day, with the To-day, in the language of To-day, no matter what thoughts of the cost of sacrifice or humiliation. Only thus can we become an eager, growing part of the glorious, living present.

By JOYCE WARNER Bookworms (and you other interested folks), we have something extra special for this week's column. The new 1947 reading course books are now in the college library.

I have a confession to make to you though-I got so interested n the book Keith Argraves, Paratrooper by George W. Chambers that I almost forgot to write the column. Just see if you can lay that book down once you've started! It gives "an ac-count of a Christian medical corpsman in the United States Army Paratroops during World War II, with thrilling stories of training, battles, imprisonment, escapes, guerrilla warfare, hunger, torture, and faithfulness to God and man." You better come early because I imagine the waiting list will

grow fast! Pioneering the Message in the Golden West by Harold Oliver McCumber, PhD., is another interesting book for the year. It tells the advancements made by the Seventh-day Adventists in California. "Much of the materfaded newspapers, dim and yel-lowed diaries, old letters, church pamphlets issued on special ocpioneers. The historical settings for the narrative have been of which presents a brilliant array, for the intrigue of the state's history has attracted many a scholar of renown, genius in research, wit, sage, and novelist." Listen to some of the strange

things that are told in Luther Burbank, Plant Magician by John Y. Beatty. "He made a red flower from a yellow one. He made stones of plums disappear. He "What are those for?" I asked, held sometime in March. A com- caused the desert cactus grow a

ROBERT FIRTH

After the close of World War II, the 102nd Infantry Division Chorus toured in Europe giving concerts. Their excursion included a trip on the Danube river. Robert Firth, secretarytreasurer of the CLOCK TOWER business staff, was a member of that chorus, having spent three and one-half years in the service. A Minnesotan, Bob attended Maplewood Academy three years, then came to Union four years ago and left for the army. While in the service, he was always anxious to return to Union. He passed the time by writing and he now has an interesting variety of original poems, etc.

He plays the clarinet, but, to quote a friend, is not as temperamental as some musicians. He definitely likes choral music and enjoys his collection of record-

time for sports such as baseball, basketball and ping pong. He has a black Cocker Spaniel named, "Nicky."

Robert is a sophomore in college, enrolled in the business administration course and works in the business office. Mrs. Firth, the former Morna Lequier, also works in the business office.

Bill likes popular portraits. He finds his hobby difficult for his portraits are so popular they frequently disappear from his room. He finds skating a pleasing pastime. Strangers interest Bill. On a train or bus or any place where he encounters folk he has never seen, Bill thinks it is fun to figure out things about them. Having spent sufficient time on that, he then gets acquainted with them and discovers how many points he has guessed correctly. In the summer his specialties are cold watermelon and limeade. He will eat onion sandwiches the year around.

Assistant in the biology labo-ratory, Bill likes biology more than any other subject.

Bill is treasurer of the colporteur club. He made a wonderful success of canvassing last summer in his home state with partner, Gordon Engen.

CLOCK TOWER, JANUARY 22, 1947

tournament ended just before the Christmas holidays in victory for the very strong California - Wyoming team. Led by towering Mike Loewen who scored 29 points for the winners, this powerful aggregation defeated and outclassed the Nebraska team in the finals, 66-41.

With the preliminary tournament out of the way, basketball came into its own as Union's favorite competitive sport. Three games were played Sunday, January 12. The very first game of the tourney forecast a thrilling season as the Colts, supposedly weak, fought the powerful Lake Union quintet all the way to lose a close one, 34-27. Had the Colts Stories from classroom and from had men to stop Duane Higgins and Vincent Agnetta, who together accounted for 30 of their team's 36 points, the outcome Jokes about your favorite teach- times. Nobody else did. would have been different.

In the second game of the day the Dakota's team edged out a surprisingly strong Southwestern five, 33-28. For the winners it was Jonietz who led the scoring with fourteen points, while James Hudgins paced the losers' attack with ten points.

It was reserved for the Sunday evening game, however, to produce most of the thrills and the big upset of the day. A smart, classy Minnesota team swept into a big lead at the start of its game with the highly favored Nebraska outfit and never was headed. The Minnesota players demonstrated fine ball-handling ability and deadly accuracy as they piled up a 51-38 margin. It was especially interesting to note that eight of the nine Minnesota men used in the game contributed to the team's scoring. For Nebraska it was Reid and Barger who played outstanding ball, the two garnering 21 and 13 points respectively.

Playing a noon game on Tuesday were the Missouri and Academy basketball fives. Figuring to be a close game, this show our generous attitude we as Missouri won, 43-27, with bill for the publicity given him. Lloyd Allen, the center, pouring 18.

Future Sports Plans Not all Union's sporting activities are limited to basketball, however, for spring is not too far away and many fine plans for outdoor activity are being laid. There is first the matter of new tennis courts which have been definitely promised for this spring by President Woods. Tennis enthusiastics are already with separate divisions and mixed doubles. Plans are also being discussed for a soft ball league organized on the order of last fall's highly successful touch-football league. Gracie, though, is really quite Many states and sections have practical in exercise of same. expressed a desire to form tearns One day Charles Reed, Paul for such a schedule. In the more immediate fu'are, work will be underway to construct a regulation basl cetball court in the gym. This project, sponsored jointly by the Veteran's Club and the play ers themselves, is under the s npervision of Gene Armour. A court constructed lengthwise across the gymnasium floor wou'ld do much to increase safety while participating in this popular sport and would at the same time eliminate much of the fouling during games because of the crowded condition on the floor.

"Fantasia In a Bewildered Re-| porter's Perplexitation (apologies to Longfellow)"

"Ye who though you go to college

Still sometimes behave like children;

And though history you can master

Would prefer a bit of humor; Would prefer life's burdens lightened;

By some stories true and simple; moonlight;

Stories of Cupid's latest conquests;

Secrets told us by your roommates;

Campus lore from learned (?) sages.

If toward these your lighter nature

Yearns with all of youth's excitement;

Look upon these printed pages; Look upon these smoking signals;

Hear the CLOCK TOWER'S campus tom-tom;

Sending Burton County extra's; Sending news from Rieseberg's Rafters.

As we sit here and meditate upon the vicissitudes of life we have decided that the perfect mode of life is that of the amoeba; his greatest responsibility is that of keeping his contractile vacuole oiled and running and of keeping his pseudopodia out of the way of everybody else.

It is with deepest misgivings that we beg the apology of Stanley Holmes because we said he hadn't spent Christmas at home for five years instead of four. To one developed into a runaway won't send Mr. Holmes our usual However, it seems that instead in 26 points. Not far behind him of the usual bi-weekly travelogue in the scoring column was Stokos furnished exclusively by the Bur-of the Academy who chalked up ton County Bureau for the furton County Bureau for the fur-nishing of tips to assorted and asundry tipsy travelers, we have uncovered the dying desires of Aunt Gertrude Gaspipe. It seems that Aunt Gertrude's last wishes were scrawled somewhat to this effect:

> "W/hat I Would Like to See Some People Do."

By HENRY RIESEBERG

Union College is filled to overflowing this year and it appears that the enrollment will be even larger next year and perhaps the following. Old Union wishes to be better prepared to take care of her students for next summer and the school year of 1947-48, so we are asking all prospective students to fill out the enrollment census blank. Please send it to the Dean's office at once. The census blank is not to be understood as an application blank but an indication, as far as you know at present, that you plan to be in Union at the indicated periods. Applications are now being accepted weekly for 1947-48. An early application is desirable in order that both room and teaching facilities may be provided for all who wish to attend. It may be necessary to limit applications before the summer is over. If you plan to attend, send for an application blank and fill it out. Return at once.

Letha Surdam and Kathryn Walling were the chief cooks for Homer, Edwina Bowen, Madelyn Root, Gladys Ross, Warren Belk, Gordon Schlenker, Herkimer Fumpf, and Bertram Twitchell-chief cooks, that is until they got hungry. Then Edwina and Gordon decided to try their domestic abilities and willingly volunteered to fix waffles for everybody else. What puzzles your innocent little reporter is why the waffles were all burned. I guess it must have been pixies or something.

It seems that recently in speech class Merritt Schumann was attempting to sell a watch. In order that a sufficiently accurate estimate of its value might be made, Mr. William Zima asked the salesman, Mr. Schumann, what kind of numbers the watch had. "Fotch" replied: "Well, Bill, it has the kind of numbers that go from one to twelve."

Jay Lantry, we hear, did an excellent (?) (well, he tried anyway) job of convincing everybody that sixty cents was not too much to pay for an amateur program of such high quality as was produced at Union College. lay made one little slip, though. He forgot to go himself. It's a shame you missed such a wonderful program. And, Jay, it was so little to pay for such a wonderful program.

We have three great scientists in our midst we have discovered. The great discovery was made upon looking over some recent biology papers.

Bill Lacy deserves great ac-claim for his discovery of teeth in carnivorous plants. Miss Arlea Lippincott should be recognized for the excellent terminology used when she designated heat-loving bacteria as "torrid" and cold-loving bacteria as "frigid." Last, but not least, however, is Betty Jeanne Strom who tells us that a person weighing 120 pounds has sixty pints of blood. We would like to meet this walking blood bank, if such is possible. (I'm certainly glad that people haven't looked over my old papers.)

Atomic Age

(Continued from page 1) How could we now get along without a United Nations? By what means and through what machinery could such a multiplicity of problems be handled. Some may consider it unfortunate to have a world organization but it would be much more unfortunate not to have one at the present time.

Morten Juberg: Write a CLOCK TOWER article on someplanning a tennis tournament thing like the stock market reparts or the number of books in

the library. Grace Walker: Refrain from exercising to extremes the woman's traditional prerogative. Shakespeare, and Wendell Carpenter all had the same idea.

Wendell got to Gracie's coat first. Wendell won. Elder Young: Talk about

European politics in German class.

Roy Matthews: Sing tenor in the quartet .
